

Job Offer **Software/IoT (Dresden, Leipzig, Berlin)** Software Developer, Frontend/Apps (m/f/d)

Our vision is to merge the world of Industry 4.0 and the Industrial Internet of Things (IIoT) with an innovative technology stack. Currently, this is inspiring many machine and plant producers as well as manufacturing companies.

Become part of our team in Dresden, Leipzig, or Berlin and get involved in the development of our industry and IoT platform. Help us to make our users enjoy using the platform. Develop interaction as well as presentation concepts with us and validate them in cooperation with our customers. Implement novel concepts using modern technologies like Angular and NativeScript for the web as well as iOS and Android.

Our team has several years of experience in UI/UX design for industrial apps. We are innovative and think freely and creatively to find unprecedented solutions for the challenges of tomorrow. This way, we ensure the long-term success of our customers.

What you can expect	Your qualifications	What we offer
A culture of honest communication and open feedback, exchange of experience and knowledge	You completed your studies in a computer-related field or have received a comparable education	Working conditions that are compatible with your personal life
Team spirit, an agile mindset, trust, and flexibility	Know-how in modern frontend and App technologies	Room for self-development and for the implementation of creative solutions as well as a welcoming atmosphere
Working with professional tools and technologies	Advanced knowledge of UI/UX design	A high degree of personal responsibility and participation in the design of our products
Joint activities inside and outside the office	An eye for aesthetics	Time to discover and try new things
If desired: Business trips to our customers and partners from China to Austria	Curiosity, willingness to learn and passion for new technologies and approaches	Short communication paths and fast, informed decisions
	The desire to participate as an active part of our team	A company pension scheme

We are looking forward to meeting you!
